Digital cameras

Dowsing rods

Trigger object and lock off camera

Laser Thermometer

Negative Ion meter

Pen Planchette

Weather Conditions

Clear

Warm

Dry

Wind Speed 2Bft

Temp 18°

The Investigation

20.30 Meet and Greet

20.45 Tour of tunnels etc. Angela got a very hot back and shoulders whilst sat on 'her step'. Whilst sat there Angela takes a photo of Dave and she gets a dark figure in the background behind him. Dave confirms he can sense a soldier.

21.00 Teri, Helena, Rosie and Jill all heard something being wheeled (unsure where they were at this time). Lorraine felt a poke in the back. Lizzie saw a man.

21.25 Everyone can smell the strong smell of burning, especially round the central staircase.

21.30 A few people independently heard someone call mum. Angela catches an orb on camera in the North tunnel. Chris sees a lady in black walk into a room at the bottom of North Caponier. Tarnia and Lizzie heard a breathing sound whilst in the room that had all the scrap metal in. Helena felt a pain in her back, crystal swayed round and round.

22.00 I heard Bex moving in upstairs West room but it turned out she was downstairs, definite movement up there but no one present. Guy and Lucy also reported movement and a white light in the same room. In the West tunnel Jill saw a dark shadow move across the room. Helena and Rose felt a draft across their faces.

22.05 Angela captures orbs on camera and the group all hear footsteps and whispering.

22.15 In West tunnel Siobhan and Angela hear footsteps behind them but upon investigation no one is there but then they see a light at the end of the tunnel, but still no one is there. Angela begins to feel sick and has a bad feeling about heading up the stairs.

22.20 Christina has a throbbing in the back of her neck when sitting on the stairs at the bottom of the West tunnel. This feeling went when Shona called out for anyone there.

Jill heard a small child say what sounded like 'I want to go home' and then rose, Jill and Helena all heard a deep sighing sound.

23.20 A figure was seen at the bottom of the West Tunnel, by Siobhan, Bev and Chloe.

23.30 In the West tunnel a figure was seen in the flash reflection by a gate. Christina feels she is being watched by someone at the top of the stairs at the bottom of the West tunnel. Orbs can be seen all around and she is getting cold down one side of her body. People are asking questions downstairs from them and this seems to encourage activity upstairs where

they are. Angela's shoulders are getting hotter and when she asks for the spirit to come closer both she and Christina see a shadow move across the window and an orb is captured on camera. Christina feels very uneasy and is aware of a man staring at them all, he is moving in and around the doorway. Other groups positions are all accounted for.

In North Tunnel footsteps are heard and lights seen. More footsteps heard. Everyone's whereabouts accounted for.

23.40 Also in the West tunnel a shuffling was heard by Bev, Chloe, Trinny and Susie.

In the West tunnel and south tunnel they felt presences. In the North Tunnel they got the name Francis and as people called out the name, shuffling could be heard.

Trinny felt someone touch her hair whilst they were in the East tunnel.

23.50 Core group heard shuffling and a groan, movement was also seen at the end of the North tunnel but upon investigation no one was there.

00.00 approx Angela, Shona, Christina, Siobhan, Jill, Jenny and Dave do glass divination in the Pony Club Room. Not much activity at first then lots of responses. Planchette is used with great results. In west Tunnel Tarnia can sense her German guy again and so she helps him move on....but I don't think he went.

At the end of the tunnel it feels very, very busy like lots of people watching us.

00.20 Teri, Treana and Ade conduct a very successful Ouija Board in the Murder, Mystery room. (Transcript available as its very long)

00.35 Tarnia felt pushed in the back and Bex heard a thud. We go up and out Tarnia says it feels like there is lots of activity up here, working, moving boxes, straw and hay, storage.

Rosie and Kyle heard moaning coming from the far end, we investigate but no one else is up here with us.

Tarnia also senses 1800's in uniform, some red, gold-lined, some green, with box hats and with horses pulling guns. She can pick up on one gentleman in particular wearing a dark green jumper, riding trousers and red hair. He is young about 20-25 with black boots; he's definitely one of the 'horsey' crowd.

01.00 Angela, Shona and Christina sit at the spiral staircase. Shona feels as though someone has been hung from the top platform, Christina feels very sick. Several orbs are caught on camera.

01.20 Vigils began with Tim adown the West tunnel. (Transcript of names and his info etc available)

02.00 With Tarnia in North Tunnel. She picks up the name Ben-James-min, Benjamin, Benjamesmin - similar to what Trinny got in same place.

Stood on the steps leading up, Tarnia can sense an Andrew/Arthur a teenager in visitation, Trinny and Susie got the same.

02.25 Vigil in 'D' tunnel. Tarnia senses a dog and I get an orb on my camera.

02.45 In Pony club room with Tim he gets the names George, James, John, and Edmond. He also makes contact with a man called William who repeatedly says 'its James fault...he had followers' as he marches up and down, pacing over and over.

03.30 Upstairs at end of West tunnel, Tarnia sings and we dance, it seems to encourage a lot of activity. We got lots of orbs and movement probably the most activity we have had in one place...we think its Tarnia's singing!

04.15 I felt someone poke me in the back, I wanted to leave. As we go to leave a large lump of chalk lands at Tarnia's feet and rolls across the floor....you can see the marks on the floor where the chalk landed and then rolled. It came from a completely different direction from where we were all stood. No one else was present.

Conclusion

Never lets us down, plenty of orbs, activity, movements.

Will definitely be returning.

Tarnia was pleased to have info she had told us confirmed by Tim.

Still need to listen to dictaphones for any EVP's recorded.
