

Southern Ghost Watchers Alliance – Paranormal Investigation Report

Summary of Investigation to
Wymering Manor
12th May 2006

Core Members present

Becky
Sarah
Annie
Lizzie
Chris
Emma

SGWA members

Terry
Ben

Guest members present

Kyle
Tarnia
Ade and guest
Julie, Sally and Sue
Heather, Gill
Samantha, Gemma & Helen

18.30 Met at the KFC North harbour, to fill tummies (how unusual!) and meet with everyone.

19.30 Arrive at the Manor and to our complete delight discover that we are allowed to investigate everywhere...up into the loft and down into the cellar which have been off limits to us on previous investigations.

19.45 Unload cars and begin with a quick look down in the cellar (not permitted before) and immediately get some interesting readings on the EMF meter. This soon discovered to be an array of electrical things on the other side of the wall!! Whilst in the cellar Tarnia can clearly hear children playing and laughing upstairs.

20.30 approx Come together for a briefing before the night begins and then begin tour of house

20.37 Go into Admirals Room and play the dictaphone of our previous EVP that we got during a séance whilst in that room. Terry walked through what felt like cobwebs but upon inspection there were definitely no cobwebs there. Whilst in here Tarnia can hear a constant tapping in the first section of the room,

20.40 One of the security guys shows us a new priest hole that has been recently discovered during some building work. A bit of the inscription can be made out; it reads 'Loialute Avecque'. (Needs more research)

20.45 Photos taken in the chapel (kitchen) by various different people produce lots of different orbs. Tarnia senses the chapel is buzzing with energy and would like to return here later.

20.50 Downstairs room by the large staircase, no activity but Tarnia senses a man in 1920's style clothing, sitting quite happily sipping Scotch. She also senses the name Henry (will research).

21.00 Whilst upstairs in priest hole room, Em sees a face in the plaster as clear as day on her camera. Em is quite good at making faces out of blobs. Sarah gets an orb when taking a picture of the priest hole but then takes another photo and it has gone.

21.03 In little boys room Tarnia senses the names Michael, Anthony and Leicester.

21.05 Investigate attic and other rooms in the top half of the building that we have not had access to before. Someone reports seeing a figure run across the doorway and hide behind the door. Upon investigation no one is there.

21.20 Whilst in attic a few of the group report being touched or grabbed.

21.30 CCTV is set up and we also set motion sensors on the stairs.

21.35 Group goes down to cellar. Tarnia feels a stabbing pain whilst connecting with an energy. A couple of the group report feeling a hand up there backs.

Southern Ghost Watchers Alliance – Paranormal Investigation Report

22.00 Group in cellar hear a moan.

22.20 Sarah sees the side profile of a man outside the door in the main hall but only for a second and then he is gone. Kyle immediately goes out to check but there is no one there.

22.21. Sarah **and Annie** see the man again. This time he is facing us and standing further back but he is very misty/see through and grey in colour, then he just fades away. Both feel a bit threatened by this presence. The resident security guard goes out to check the grounds anyway but no one around.

21.50 In Endurance room (music room/admirals room whichever you like to call it) Sue sees 2 small white lights on the right hand side of fireplace.

22.00 Ben and Treana are sat in the Music Room in the middle section and they heard a noise. Upon investigation discover a fallen broken curtain ring on the floor. This was not there before. Ade is also sure he heard a voice say 'Sorry'.

23.00 Becky and her group are in the Ark Royal room someone sees the silhouette of a man at the window (unclear whether this is inside or outside the room). Clanking noise is reported in the old lady's room by Heather, Gill, Samantha, Gemma and Helen.

23.05 Dreadful interference on walkie-talkies with no explanation (these are usually silent until spoken into).

00.00 In the room where a little boy has been seen at the window Becky is sat with her group and they are talking about doors opening and then the door swung open. Various things are done to try and encourage this to happen again (structural movement. Floor, draft etc) but nothing can explain the door opening.

00.05 Sudden temperature drop, suddenly freezing!

00.07 Door is seen to swing open again by the same people.

00.36 Chris takes the first small group over to the church and are frightened by a very loud screeching fox!!

00.53 Bex takes second group over to church but again they experience nothing. Chris takes a group to the music room.

01.16 Lots of camera disturbances monitored on CCTV. Looks like what appears to be a hand pass across the screen.

01.18 Camera is seen to be physically moving. Orbs come towards the camera. Very bright , very clear. All the oo's and ahh's by the small group monitoring the CCTV, sound like a firework display!

01.20 Take some temperatures. I am 32°, Tarnia is 27°, outside it is 17.3°, Annie is 20° (the outside of her sleeping bag!) Chris is 24°, Emma is 29.8° and Ben is 21°. Need to find more productive use of Emma's laser thermometer!!!

01.35 Investigate downstairs fireplace in main hall and discover what looks like another chamber up the chimney breast

02.00 approx. Flashes of light can be seen outside but ruled out as camera flashes.

02.10 Two loud breathes are heard by 6 members of the group who were holding a vigil in the double dorm room. Three bangs were also heard and everyone's positions were accounted for.

02.12 Loud sigh heard again by the group of 6 in the same room.

02.20 A single person is seen and heard walking across the top of the small staircase and a door creaked very loudly and then closed. Sarah and Kyle race to investigate but no-one there and everyone's whereabouts are accounted for. The movement was very loud and clear.
Same group of 6 in the double dorm room also hear the same footsteps and creaking door close.

Southern Ghost Watchers Alliance – Paranormal Investigation Report

02.26 Tarnia reports that she can sense no energy at all in the attic (despite what Most Faked..... oops sorry I mean Most Haunted would have you believe!) and upon investigation we discover that the reason for this is that it is a new false ceiling and that originally that attic floor wasn't there.

03.00 Most of the group are upstairs doing a séance, but activity seems to have come to a halt and so we begin to pack up and look forward to our beds!!!! (That's the beauty of investigating locally!!!!)

CCTV

The camera ran for 4 hours and in that time occurrences on screen and also on tape) were as follows

Orbs a plenty, some very bright.

Something tries to appear (unexplainable)

Main front door appears to open and close

Light hovering

Something tries to appear again by the front door

Another good orb

Mist travels from left to right of screen (draft is blowing in the other direction)

Excellent orb

Very bright light moves across screen

Another orb appears when Chris asked for it.

16 mins later another orb

3 mins later another orb

White flash

Light across the screen

13 mins later big bright clear orb

2 mins later big bright clear orb

Light anomalie moving in doorway
